# Erratum to: Physicians' responses to computerized drug interaction alerts with password overrides

Yasuyuki Nasuhara<sup>1\*</sup>, Ken Sakushima<sup>2</sup>, Akira Endoh<sup>3</sup>, Reona Umeki<sup>3</sup>, Hiromitsu Oki<sup>4</sup>, Takehiro Yamada<sup>4</sup>, Ken Iseki<sup>4,5</sup> and Makoto Ishikawa<sup>1</sup>

## Erratum

Following publication of our paper in *BMC Medical Informatics and Decision Making* [1], it was brought to our attention that we had used a slightly modified version of DIAS which had been originally developed by another group [2]. We inadvertently failed to include this paper in the reference list.

On page two, line 21-23 in the left column, this should have been presented as "This study investigated override rates among physicians with awareness of DDIs using DIAS that requires a password override." On page two, line 2-4, in the right column, this should have been presented as "The DIAS that requires a password override at our hospital was originally developed in collaboration between the Department of Hospital Pharmacy and Pharmacology, Asahikawa Medical University and Techno-Forum Co. Ltd., Japan".

As a result, some of figures and tables were similar in both papers, especially figure 1 (in Japanese) is very similar, therefore please disregard it. We sincerely apologize for this oversight.

## Author details

<sup>1</sup>Division of Hospital Safety Management, Hokkaido University Hospital, Sapporo, Japan. <sup>2</sup>Department of Regulatory Science, Hokkaido University Graduate School of Medicine, Sapporo, Japan. <sup>3</sup>Division of Medical Information Planning, Hokkaido University Hospital, Sapporo, Japan. <sup>4</sup>Department of Pharmacy, Hokkaido University Hospital, Sapporo, Japan. <sup>5</sup>Laboratory of Clinical Pharmaceuticals and Therapeutics, Faculty of Pharmaceutical Sciences, Hokkaido University, Sapporo, Japan.
